Program Outcomes

Anticipate Change

- Identify and interpret global macro trends that shape your industry's future.

Foster Strategic Agility

- Align your strategy with global shifts and emerging needs to stay ahead of the curve.

Master Scenario Planning

- Design and use scenarios to test the robustness of your current strategies and guide bold, future-fit decision-making.

Deliver a Real-World Strategy

- Apply your learning directly to a live challenge within your organization—with expert support and peer feedback.

Expand Your Global Network

- Connect with CSIS scholars and foresight experts to exchange ideas, benchmark strategies, and foster ongoing collaboration.

Agency in an Age of Uncertainty

Today's leaders face market volatility, security threats, and rapid political change. Our customizable executive program empowers decision-makers and teams to anticipate disruption, respond strategically to geopolitical risks, and turn uncertainty into opportunity. Gain the frameworks, tools, and confidence needed to lead decisively in an unpredictable world.
