

## INVITATION

**ALTERNATIVE TRANSPORTATION FUELS**  
Session V– Carbon to Liquid Technologies

**9:00 AM – 11:30AM**  
**Tuesday, December 12, 2006**  
**CSIS B-1 Conference Level, Room B**  
**1800 K Street, NW, Washington DC**

The CSIS Energy Program, the Global Strategy Institute and the National Renewable Energy Laboratory are pleased to present the fifth in a series of discussions on Future Fuels and New Energy Technologies. This installment is intended to build upon our previous sessions with an overview of Carbon-to-Liquid Technologies.

### **Featured Speakers:**

**Douglas Arent, Director, Strategic Analysis, National Renewable Energy Laboratory**

**Carl Bauer, Director, National Energy Technology Laboratory**

**Donald Paul, Vice President and Chief Technology Officer, Chevron**

**Erik Peterson, Senior Vice President, William A. Schreyer Chair in Global Analysis and Director, Global Strategy Institute, CSIS**

**Ken Roberts, Senior Vice President, Business Development, Syntroleum**

**Robert Williams, Senior Research Scientist, Princeton Environmental Institute**

Please RSVP by Noon, Monday, December 11, 2006 by sending an email to [energy@csis.org](mailto:energy@csis.org) with "Alternative Fuels 12/12" in the subject line.
