

# Enhanced oil recovery is the key to unlocking more of Saskatchewan's immense oil resource

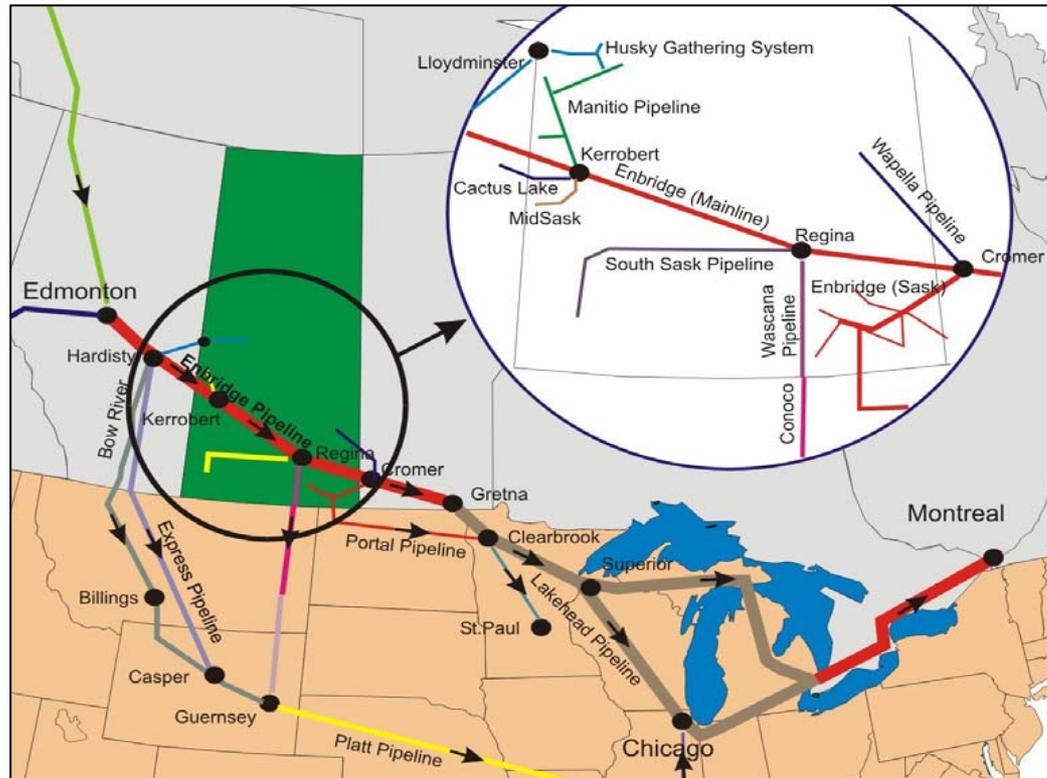

Petroleum Technology  
Research Center

New PTRC research injects a gaseous hydrocarbon solution to extract heavy oil – a process that doesn't require water or heat.

# Saskatchewan's infrastructure can accommodate additional oil reserves

Husky Oil Upgrader

# New regulations encourage the exploration of oilsands

Oilsands Quest

Provincial geologists estimate there are approximately 10,000 square miles with oil sands potential in Saskatchewan.

Alberta has about 55,000 square miles of known economic oil sands deposits.

# New investment opportunities abound in Saskatchewan's energy economy

## Value Added Opportunities

- ✓ Nuclear Fuel Cycle
- ✓ Petrochemicals
- ✓ CO<sub>2</sub> Sequestration
- ✓ Ethanol
- ✓ Polygeneration
- ✓ Bio-Mass
- ✓ Hydrogen

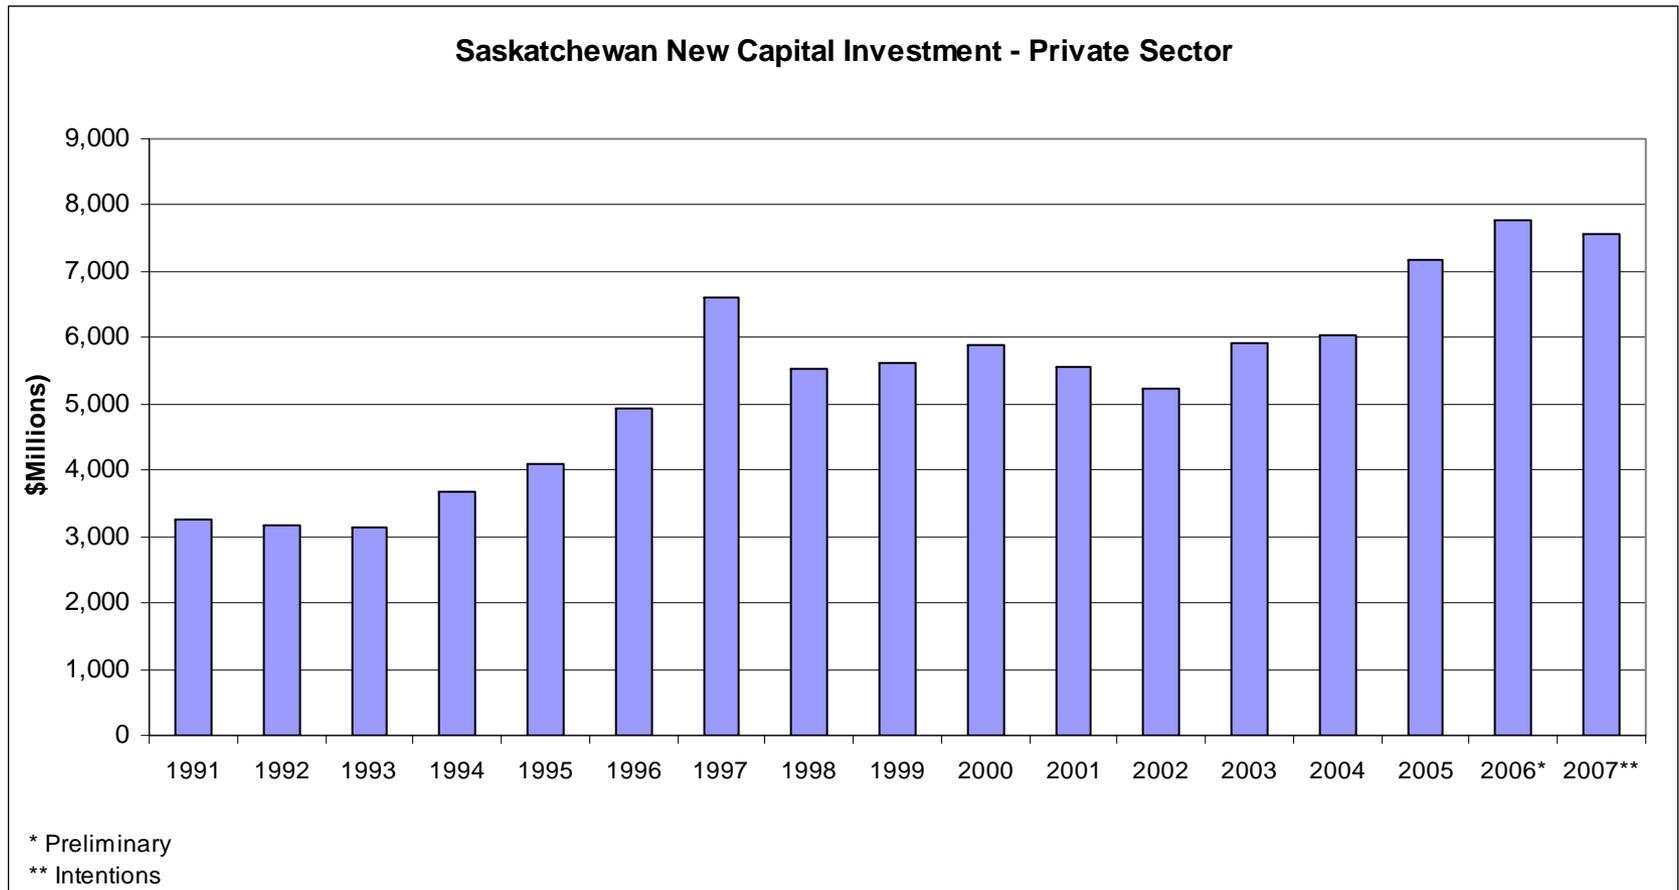

Big Eagle Drilling

# Private investment has more than doubled since 1991

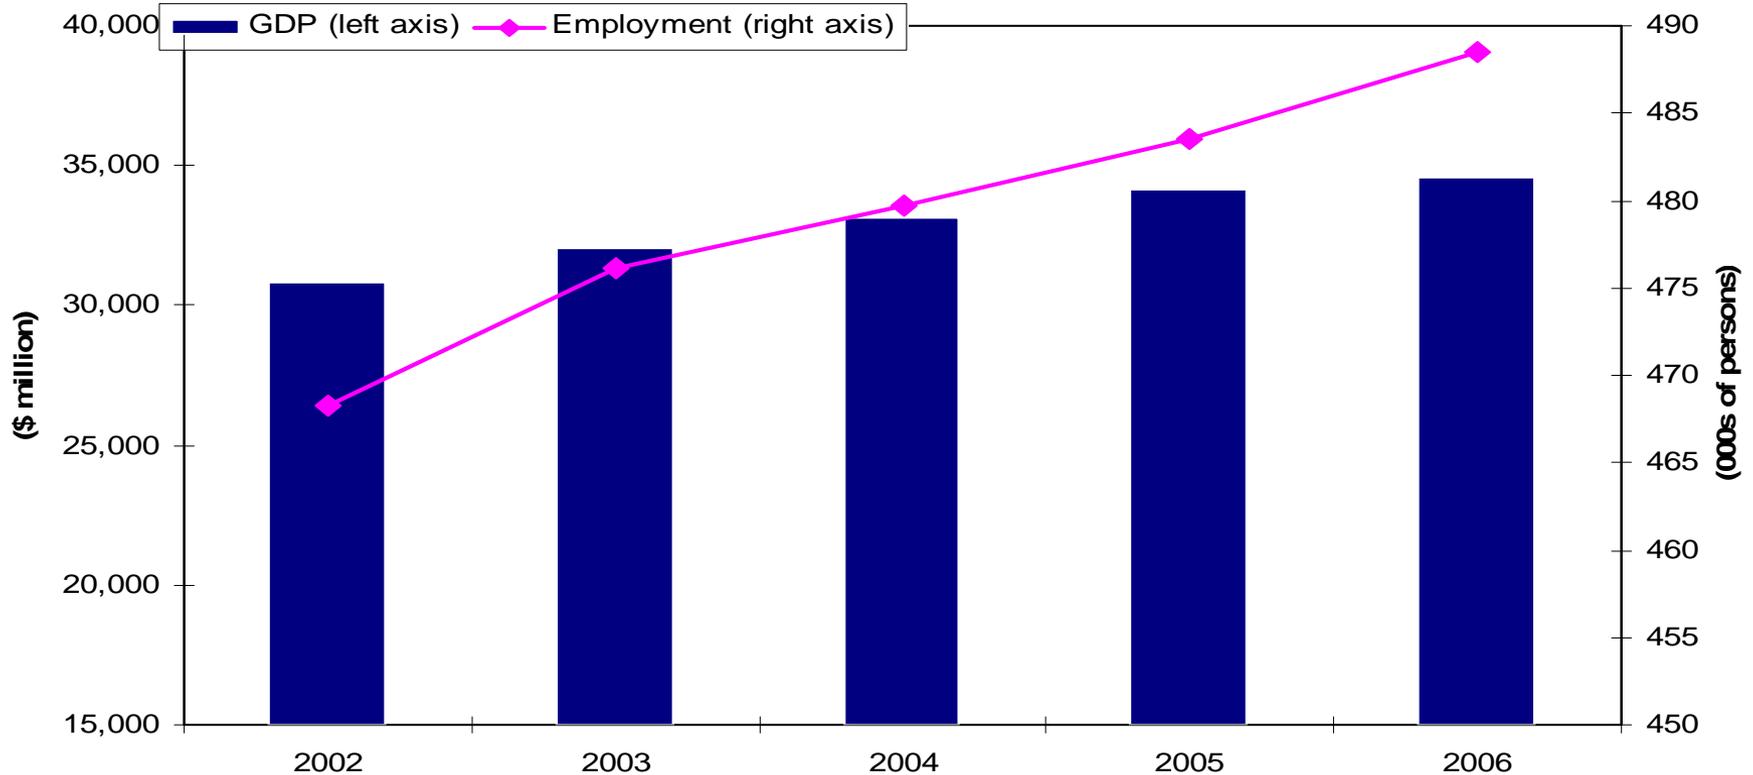

Sauter Communications

# Economic forecasters are predicting continued growth in Saskatchewan

## Saskatchewan - Trends in GDP and Employment (2001- 2006f)

We continue to work on increasing Saskatchewan's economic momentum
