The G7 Tests

Next month's G7 summit in Cornwall will be a useful testing ground for three propositions about global governance. [Read more.](#)

Supply Chains Face New Demands after Covid-19: Digital Transformation, Climate, and Security

President Biden's February 2021 mandate for a government review of vulnerabilities in U.S. supply chains was a wake-up call, forcing companies to reexamine and manage their supply chain risks. [Read more.](#)

IFIs' Covid-19 Approvals through Q1 2021 Surpass \$260 Billion

The CSIS Economics Program estimates major international financial institutions approved more than \$260 billion in Covid-19-related support since the start of the pandemic. [Read more.](#)

LATEST FROM RECONNECTING ASIA

Reconnecting Asia Project Database

Reconnecting Asia's new website features a downloadable database of over 14,000 infrastructure projects across the supercontinent of Eurasia. Visit the new site for more maps, data, and analysis on the linkages that are transforming the world's economic and geopolitical landscapes. [Visit the new site.](#)

Huawei's Global Cloud Strategy

The CSIS Reconnecting Asia Project identified 70 deals in 41 countries between Huawei and foreign governments or state-owned enterprises (SOEs) for cloud infrastructure and e-government services. [Read more.](#)

IN THE NEWS

“Matthew Goodman ... points to the possibility that the U.S. could gather like-minded countries to create rules covering digital technology, data and e-commerce.”

Matthew Goodman | [Nikkei Asian Review](#)

“With a surge in deals announced since 2018, including several announcements during 2020, it is clear that warnings against Huawei’s security risks are not persuading decision makers in developing countries,” the CSIS report, authored by Jonathan Hillman and Maesea McCalpin, said.
